Welcome to the HE Reform Identity System

The Identity System allows you to create a personal Higher Education Reform Profile, which gives you the opportunity of finding and contacting other experts. Members can be grouped according to e.g. their country, expert fields or function. The System will allow the community to work as a pool of expertise and will facilitate communication and information exchange.

Unique Identity

The HE Reform Identity is a unique personal Identity. It allows you to easily register to the [HE Reform Information Portal](#) and to the [HE Reform conference websites](#). Your HE Reform Identity profile will automatically be recognized.

Get your Identity

The HE Reform Identity contains the standard contact information, a bibliography and information about the expert fields or role of the HE Reform members

Seminar "Recognition in Higher Education: how to make it Work!"

From Monday, June 7, 2010 to Wednesday, June 9, 2010

The UNICA – Brussels Education Services consortium kindly invites you to the Seminar for Bologna and Higher Education Reform Experts: 'Recognition in Higher Education - How to make it work!' hosted by Tallinn University and Tallinn University of Technology on 7-9 June 2010.

Recognition of Prior Learning – sharing European principles and practice

From Wednesday, February 17, 2010 to Wednesday, February 17, 2010

Following recommendations in the Leuven Communiqué 2009, which identify RPL as a significant area for consolidation and development within Higher Education in Europe as part of the Bologna process, QAA Scotland, in collaboration with the Scottish Government, Ireland and the Netherlands, are hosting an event to present and share practice in the area of Recognition of Prior Learning.

Welcome to the Forum on Learning Outcomes for all Higher Education Reformers

Dear Reformer,

Welcome to this forum which I hope will develop as a place to share ideas regarding learning outcomes. The forum will kick off in Tallinn where there will be a Workshop on ECTS and Learning Outcomes.

HER III: Specific support activities to Tempus partner countries

admin
5:28pm Mar 26, 2010

The Information Project on Higher Education Reform III implemented by the UNICA-Brussels Education Services Consortium previews specific support activities to Tempus partner countries.

In order to set up fruitful collaborations and to meet mutual expectations on the implementation of these activities, we have prepared two documents that you can find in the attachments below:

- a document providing further details on the activities which includes a set of guidelines explaining how we will work together;
- a "Technical Assistance Request Form".

Competences for the Future: Perspective of the Students' Parliament of the Republic of Poland

admin

10:57am Dec 14, 2009

Tagged: Higher education institutions and students | Bologna Paper

Highlight changes

Bologna Discussion Paper: Competences for the Future
Perspective of the Students' Parliament of the Republic of Poland
Higher Education systems in most European countries are not fully addressing students' needs in terms of their future careers and personal development. This is probably the most important challenge for countries taking part in the Bologna Process. Therefore, it is not accidental that employability has become one of the priorities in the Bologna Process. The topic of competences for the future can by no means equated to a simple enumeration of competences that are deemed to be most valuable in the coming years and decades. This is rather a question of the level of innovation brought about by the changes in the education process which would create the space for generic competences and learning outcomes to be defined and to be the basis of the curricula development.
